

# Organic Chemistry Colloquium SS2024:

(Location: Hörsaal Chemie, Time: 17:15)

**15<sup>th</sup> April 2024** (Lecture takes place @ HS Pharmazie)

Oliver Thorn-Seshold – LMU München

*"Photoswitches, super-resolution imaging, and dichalcogenide redox biochemistry: heteroatom adventures in chemical biology"*

**22<sup>nd</sup> April 2024**

Burkhard König – University of Regensburg

*"Better organic synthesis with light!"*

**06<sup>th</sup> May 2024**

Dennis Gillingham – University of Basel

*"Chemically induced proximity as an enabling concept in chemistry and biology"*

**08<sup>th</sup> May 2024 – Steinhof Lecture** (Lecture takes place on a Wednesday)

Christof Sparr – University of Basel

*"Catalyst Control over Higher-Order Stereogenicity"*

**13<sup>th</sup> May 2024**

Debabrata Maiti – IIT Bombay

*"Unlocking new chemical space via selective catalysis"*

**27<sup>th</sup> May 2024**

Hideki Yorimitsu – University of Kyoto

*"Reductive Dimetalation of Unsaturated Bonds"*

**17<sup>th</sup> June 2024**

Rene Königs – RWTH Aachen

*"Enlightening carbene and nitrene transfer reactions"*

**24<sup>th</sup> June 2024**

Claudia Höbartner – University of Würzburg (GDCh)

*"RNA-modifying ribozymes"*

**25<sup>th</sup> June 2024** (Lecture takes place on a Tuesday)

Eva Hevia – University of Bern (GDCh)

*"Tailor-made bimetallics for Chemical Cooperativity"*

**8<sup>th</sup> July 2024**

Jana Zaumseil – University of Heidelberg (GDCh)

*"Making carbon nanotubes brighter with luminescent defects"*

**15<sup>th</sup> July 2024**

Vinh Nguyen – University of Sydney

*"Olefinations of Carbonyl Compounds via Isodesmic Reactions"*
