

# Organic Chemistry Colloquium SoSe 2025:

(Location: Hörsaal Chemie, Time: 17:15)

## **5<sup>th</sup> May 2025 (GDCh)**

Simon Ebbinghaus – University Bochum

*“Biomolecular folding stability and aggregation in cells”*

## **14<sup>th</sup> May 2025 (GDCh) – Steinhof Lecture – Wednesday**

Frederik R. Wurm – University Twente

*“Shaping the Future of Biodegradable Polymers: From Biopolymers to Synthetic Polyphosphoesters”*

## **16<sup>th</sup> May 2025 – Reinhard Brückner Symposium – Friday**

Oliver Reiser – University of Regensburg

Andreas Gansäuer – University of Bonn

Henning Priepke – Boehringer Ingelheim

*(Details will follow)*

## **2<sup>nd</sup> June 2025**

Christina Thiele – Technical University Darmstadt

*“Modern solution NMR methods providing insight into catalysis”*

## **16<sup>th</sup> June 2025 (GDCh)**

Carsten Bolm – RWTH Aachen

*“The use of mills in synthetic organic chemistry”*

## **7<sup>th</sup> July 2025**

Beate Kokschi – FU Berlin

*“Fluorine in peptide, protein and cell engineering”*

## **14<sup>th</sup> July 2025 (GDCh)**

Richmond Sarpong – University of California, Berkeley

*“Break-it-to-Make-it Strategies for Chemical Synthesis Inspired by Complex Natural Products”*

## **21<sup>st</sup> July 2025**

Christopher Teskey – TU Braunschweig

*“Cobalt hydride catalysis under the spotlight”*

## **22<sup>nd</sup> July 2025 (GDCh) – Tuesday**

Peter Roesky – Karlsruhe Institute of Technology

*“Lanthanide Sandwich Compounds – Magnetic and Luminescent Materials”*
